The politics department would love for you to use this time over the coming weeks and months to get interested in Politics. Start to develop your interest in the subject and build your general political knowledge. There is so much going on in the world of politics today that makes the subject more living and breathing than ever. #### **Research Activity**

Using the internet and books, complete the following task. You should produce notes using the Cornell Note Taking System (<a href="http://lsc.cornell.edu/wp-content/uploads/2015/10/Cornell-Note\_Taking-System.pdf">http://lsc.cornell.edu/wp-content/uploads/2015/10/Cornell-Note\_Taking-System.pdf</a>) on the following topic(s). Make sure you have your notes with you for your first lesson in September.

- 1. Your research task is to choose one of the following parties: Conservative & Unionist Party or Labour Party. You need to research the history of the party, their ideology and policy beliefs (including their most recent election manifesto), their electoral performance (are they currently in government? How well did they do at the last election (Dec 2019)?) and finally key figures in that party (include photos and descriptions of who they are). This should be about one A4 page of typed work. You need to turn this into some sort of leaflet/flyer about that party including pictures, not just a set of notes.
- 2. Conduct some research into the role of your local MP.

I would like you to find out who your local MP is and the following details about them:

MP's name:

Political party:

Constituency (the area they represent):

Areas they have a particular interest in:

And finally, look at their voting record (found here <a href="https://www.theyworkforyou.com/">https://www.theyworkforyou.com/</a> by clicking 'voting record') and jot down some ways in which they've voted in parliament.
