

February 2020

Dear Parent/Guardian

Spectroscopy Masterclass – Reading University

A Spectroscopy Masterclass has been organised for **Wednesday 24th June 2020** at Reading University. Students will be shown the instruments used in mass spectrometry, nuclear magnetic resonance (NMR) spectroscopy and infrared (IR) spectroscopy, and they will be given an opportunity to view them in action. They will also be able to review their understanding of these techniques during a series of short workshops on each. This will enhance their theory lessons on instrumental analysis and provide them with valuable experience on the use of these instruments.

Your daughter/son will be expected to make their own way there and back from the University. Mrs Fairhead will meet students at 09:00 outside the Chemistry Department at Reading University and the event will finish by 15.35. Students should bring a packed lunch or cash to buy lunch in one of the central catering facilities on campus before the start of the workshop. Some small refreshments will be provided on arrival during registration.

In order to register for this event, please click on the following link to give your consent [Parental Consent](#) by **Friday 12th June 2020**.

Yours sincerely

Mrs R Nayyar
Head of Chemistry
