30 mins for each subject, unless specified otherwise. NB Home learning times are average; an individual task may take more or less time than stated and can take the form of course work which will last over a number of weeks. Science should consist of one Biology, one Chemistry and one Physics task and

may need to be set in lesson and done on another day. There should be 1 PE home learning per week, 2 for MFL, 2 for Maths, 3 for English, 2 for each option. There is one set each week for PoR but not necessarily on the day of the lesson.
