Dear Parent / Guardian

**Re: Year 10 - GCSE Combined Science OCR Gateway (Foundation) Revision Guides
10xyScC6**

The Science Faculty at The Holt School would like to provide both independent and guided revision support to the students who are studying science in Years 10 and 11.

We have identified revision material published by Collins that we feel is highly appropriate for our students and which has the additional advantage of being specific to the GCSE Combined Science for OCR Gateway (Foundation) course that your daughter is studying.

We have a Combined Science All-in-One Revision and Practice guide from the publisher, which we can offer you at the reduced price of £9.00.

This can be bought by logging into your daughter's Wise Pay account, clicking on Shop and then Science. Once payment has been made, your daughter will receive her book in her science lesson.

Yours sincerely

Mrs R Nayar
Head of Science
