Dear Parent/Guardian

Re: Year 10 - GCSE Separate Sciences (Triple) OCR Gateway Revision Guides

The Science Faculty at the Holt School would like to provide both independent and guided revision support to the students who are studying triple science in Years 10 and 11.

We have identified revision material published by CGP that we feel is highly appropriate for our students and which has the additional advantage of being specific to the **GCSE Biology / Chemistry / Physics OCR Gateway** courses that your daughter is studying.

We have revision books, workbooks and workbook answers from the publisher which we can offer you at reduced prices:

Total cost for a set of three books for all three sciences £19.50

These can be bought by logging into your daughter's **Wise Pay account**, clicking on **Shop** and then **Science**. Once payment has been made, your daughter will collect her books in her science lesson.

Yours sincerely

Mrs R Nayyar
Head of Science
